 \_\_\_\_\_ The shooter recognizes that US Team selection for 2023 is based upon prior performances at qualifying matches. Submitting an application does not guarantee a spot on the team. Shooter will apply for their preferred Division(s) (if applicable). Depending on performance and interest levels for the Factory spots available, the team may invite shooters to compete at the World Championships in a different Division and/or Category.

\_\_\_\_\_ Representing Team USA is a prestigious opportunity and should be taken seriously. By submitting this application, the applicant agrees to represent themselves, the team and the United States of America in a professional manner. Conduct not befitting may result in dismissal from the team, including at the World Championships. This conduct is not limited to the Worlds Championship match, and is standard held from being selected for the team point forward. This includes social media and sportsmanship before, during and after matches.

\_\_\_\_\_ Competing at the World Championships may be an expensive endeavor. Applicant agrees that self funding is required to attend the World Championships.

\_\_\_\_\_ As a representative of the United States and if selected for being on Team USA, applicant agrees to conform to any dress codes, team jersey requirements and/or other apparel requirements during the World Championships and related activities.
